CryoPur™ Cryopreservation Solutions

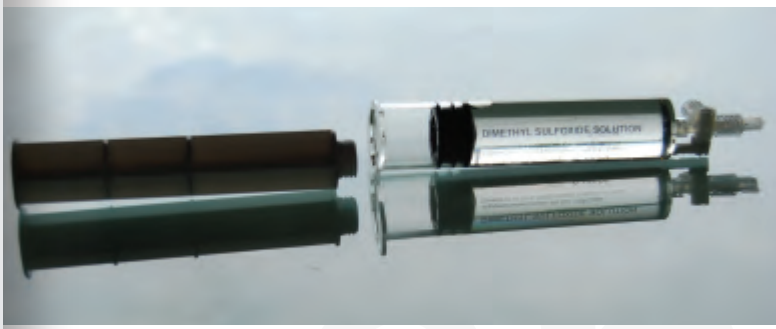
CryoPur™: 100% DMSO

Sterile filtered DMSO is available in a variety of packages, concentrations, and volumes designed for lab use. 100% and buffered DMSO solutions are packaged in polymeric syringes or vials; both packages are water-clear, and shatter-resistant. Our DMSO products are CE-marked and certified to USP and Ph. Eur. standards

CryoPur™ vials with white caps contain 100% DMSO, and are available in 10, 50, 70 and 100ml fill volumes. Caps are flip off/tear off seal.

CryoPur-D™ DMSO/Dextran Solutions

Sterile, filtered DMSO/Dextran solutions are available in a variety of concentrations and formulations. CryoPur-D™ vials with green flip/tear off caps contain 55% w/v DMSO, 5% with Dextran-40, remainder water for injections.



Available in Syringes and Vials

DMSO and DMSO/Dextran filled sterile syringes are fitted with a stopcock and are shipped with the actuator blocked for safety. To use merely connect to your system. They are available in several configurations for easy, aseptic transfer.
